

Marcia Leite

FULL STACK WEB
DEVELOPER

ABOUT ME

I'm Marcia from Argentina, presently based in Montevideo - Uruguay.

I got my tertiary degree as an English Language teacher, so that is why I have work experience as a teacher, leading groups of students in institutes and where I was in charge of the E-learning platform.

I also have experience in Hotels and Tourism. Firstly, I worked with OPERA Enterprise Solution from MICROS Systems as an end-user. Later, the company granted me privileges, which enabled me to be in charge of backup support.

During the last time, I focused my career in the IT industry. I've been studying intensively in a Coding Bootcamp where I acquired knowledge in different programming languages along with modules on current industry software, tools, and techniques.

At the moment, I'm looking for a job that allows me to keep growing personally and professionally.
